Meeting	Adventure		
Week night	Friday	Saturday	Sunday

The One Programme is driven by the programme cycle and its three key steps are PLAN –DO – Review.

The adventure is the key feature of each programme cycle and our meetings are the pathways to a successful adventure experience.

The Review process allows us to examine how the programme cycle has gone up to now , and gives an opportunity to see the things that we have learned about ourselves , how we work together , how we can improve and have better adventurers in the future.
