

# MEDIEVAL TIMES - IDEAS

**King's Court** - Making decisions is hard. Let's pick a topic and have a debate.

**Music and Banquets**  
- Can we make instruments from rubbish and have a concert?

**Knight Training** - The knights followed a code like our Promise and Law. How can we tell others about our code?

**Crusades** - There are a lot of homeless in Ireland! Can we start a campaign to help the homeless in our area?

**Jousting** - Sometimes I don't always stand up for myself! Let's see if I can stay standing in a game of Jousting?

**Jesters** - We could learn some circus skills for Parents' night.

**Friars** - The friars always tried to see the good in people and helped those in need. What could we do to help others in our community?

**Hot air balloons** - The Chinese invented paper lanterns around then. They wrote their hopes and dreams on the lanterns before launching them. I hear it's really easy to make a paper lantern! Can we try?

**Doctors** - The Plague killed loads of people. We could find out about charities who fight illness in other countries.

**Book Printing** - The first books were printed back then. We can make print blocks using potatoes.

**Wind Mills** - We should find out about making electricity from the wind.

**Astrology** - We could try to find our star signs in the night sky.
