

THE CARIBBEAN - IDEAS

Voyages and Discovery - We should go on a day-out to discover a new place!

Treasure Island - Money has a strange effect on some people. Why is that?

Desert Island Survival – Can we learn about how to survive on our own? What challenges would we face?

Hammocks and Hideouts - Some times it's good to spend time on our own. I like to read in my spare time. I will make sure that I make time to read on our next activity.

Nature - What is this "Leave No Trace" programme?

Island Peoples - The Caribbean is full of different cultures. How many different cultures are in our town? Can we do a survey in our Neighbourhood?

Preservation - We could make a memory box of all the things we have collected on our Cub Scout Journey.

Weather Forecasting - Weather affects how I feel. We could keep a diary of the weather and how we feel. Or we could make a rain gauge!

Telescopes - Weren't they used to keep watch? How can we watch out for each other? On our next hike, we could use the Buddy System!

Sea Language - Pirates used their own slang. Can we invent our own language too?

Fishing - We should all go on a fishing trip!

Jamaican Celebrations - Can we have a Beach Party and showcase our talents?
