12th September 2019

Dear Member,

As you are all aware, Scouting Ireland is in a time of transition. Coupled with this period of significant change is that fact that our existing 3-year strategic plan is due to come to an end at the end of December. So we are, quite timely, now embarking on developing our new Strategic Plan 2020 – 2023 and we would like and value your input!

Such a Strategic Plan is an important route map of where we, as an organisation want to go. In developing such a strategy, we also have an opportunity to reflect on the journey so far as we make plans for the future. Our continued mission and values as a National Scout Organisation will be to the fore in specifying what the organisation hopes to achieve over the coming three years, and how we plan to do it.

Your ideas and opinions will help Scouting Ireland with building its new strategic plan that will provide us with a sense of direction and will allow us to develop measurable goals and key performance indicators. We want you to be our compass, so please take this opportunity to have your say and help influence our future.

If you are a Youth Member please [click here](#)

If you are a Parent or Adult Volunteer please [click here](#)

This Strategic Plan may be one of the most important to Scouting in Ireland in the last 100 years, so your participation, your ideas and your opinion is very important to us!

Yours in Scouting,

A handwritten signature in black ink that reads 'Adrian Tennant'.

Adrian Tennant
Chairperson
Scouting Ireland
